

**RESOLUTION NO. 2019-01**

**A RESOLUTION OF THE PALM BEACH COUNTY LEAGUE OF CITIES, INC. ON THE RE-EVALUATION OF LAKE OKEECHOBEE OPERATIONS BY THE U.S. ARMY CORPS OF ENGINEERS PURSUANT TO THE NATIONAL ENVIRONMENTAL POLICY ACT ASSESSMENT FOR THE LAKE OKEECHOBEE SYSTEM OPERATING MANUAL; PROVIDING AN EFFECTIVE DATE AND FOR OTHER PURPOSES.**

**WHEREAS**, Lake Okeechobee is the liquid heart of an integrated regional water management system and is essential and interconnected to communities, businesses, public water supply utilities and ecosystems throughout Palm Beach County; and

**WHEREAS**, Lake Okeechobee is an integral component of the Comprehensive Everglades Restoration Plan (CERP) and is critical to meeting the environmental restoration and water supply needs of South Florida; and

**WHEREAS**, Lake Okeechobee is essential to protecting the region's water supply infrastructure from saltwater intrusion by providing a source of freshwater to prevent the migration of saltwater into coastal wellfields; and

**WHEREAS**, Lake Okeechobee's authorized project purposes include flood control, water supply, recreation, navigation, environmental effects to fish and wildlife, and cultural and recreational resources; and

**WHEREAS**, Section 1106 of the 2018 Water Resources Development Act (WRDA) directs the Secretary of the Army to expedite completion of the Lake Okeechobee regulation schedule to coincide with completion of the Herbert Hoover Dike project, and may include all relevant aspects of the CERP; and

**WHEREAS**, in January 2019, Palm Beach County received notice from the U.S. Army Corps of Engineers (Corps) that, in accordance with Section 1106 of the 2018 WRDA, the Corps is beginning preparation of a National Environmental Policy Act (NEPA) assessment for the Lake Okeechobee System Operations Manual (LOSOM), which is to re-evaluate and define operations for the Lake Okeechobee regulation schedule that takes into account nearly complete additional infrastructure which will soon be operational components of the water management system; and

**WHEREAS**, rehabilitation activities on Lake Okeechobee's Herbert Hoover Dike by the Corps began in 2001 and are expected to be complete by 2022; and

**WHEREAS**, the Lake Okeechobee Regulation Schedule of 2008 (LORS08) was implemented as an interim measure to protect the public from the risk of catastrophic failure of the Herbert Hoover Dike; and

**WHEREAS**, Palm Beach County, in partnership with state and local partners, has invested over \$500 million in the acquisition, restoration and management of approximately 32,000 acres of natural areas and invested approximately \$88 million to restore the Lake Worth Lagoon; and

**WHEREAS**, the Board of Directors of the Palm Beach County League of Cities, Inc. wishes to state which measures that it supports and opposes in the Lake Okeechobee operations re-evaluation process and the resultant LOSOM.

**NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF DIRECTORS OF THE PALM BEACH COUNTY LEAGUE OF CITIES, INC., THAT THE BOARD HEREBY SUPPORTS THE FOLLOWING AS IT RELATES TO THE RE-EVALUATION OF LAKE OKEECHOBEE OPERATIONS BY THE CORPS:**

1. A science-based evaluation that is transparent and acknowledges and balances all congressionally-authorized purposes of Lake Okeechobee operations; and
2. Performance measures that appropriately and accurately characterize impacts to all communities as it relates to water supply, the environment, and the economy; and
3. The incorporation of data and methods to ensure proposed operations improve lake ecology, protect water supplies and are robust and resilient to expected climatic variability; and
4. The implementation of water storage and water quality treatment projects in Lake Okeechobee tributary basins north of the Lake; and
5. Lake Okeechobee operations that reduce flood risk and flood insurance premiums for residents and businesses in the Glades communities located southeast of Lake Okeechobee; and
6. Lake Okeechobee operations that assist in achieving restoration flows and other key ecosystem goals, including performance measures developed by CERP's Restoration Coordination & Verification (RECOVER) program; and
7. The avoidance and/or minimization of Lake Okeechobee discharges to the Lake Worth Lagoon and the Loxahatchee River; and
8. Reductions in water use restrictions and cutbacks on public water utilities and existing permitted users, as compared to those which occur under LORS08.

**AND BE IT FURTHER RESOLVED** that the Board of Directors *opposes* the following as it relates to the re-evaluation of Lake Okeechobee operations by the Corps:

1. Drastically lowering Lake Okeechobee to levels not supported by sound science (e.g. 10.5 feet NGVD) which would induce drought conditions, impact the ability to deliver water to critical ecosystems, and result in significant environmental damage; and
2. Lake Okeechobee operations that result in increased risk of saltwater intrusion into coastal wellfields which would cause irreversible damage to freshwater supplies, affect the health and safety of residents, and result in the need for massive alternative water supply infrastructure investments; and

3. Lake Okeechobee operations that result in restrictions on recreational and commercial fishing, which would impact small businesses such as marinas, fishing guide services and the hospitality industry.

**THIS RESOLUTION** shall take effect immediately upon its adoption by the Board of Directors.

**PASSED AND ADOPTED** this 20<sup>th</sup> day of March, 2019.

BOARD OF DIRECTORS OF  
THE PALM BEACH COUNTY  
LEAGUE OF CITIES, INC.
